

DEBUT

In 'Debut' Mode your project page becomes much more of an 'Overview'/ Advertisement. With the opportunity to contribute/collaborate remaining, but the additions of 'Book Tickets' 'Locations/Maps' 'Buy/Watch Stream'. Button titles and links depend on what kind of project you selected in the first place.

TIMELINE / REVIEWS / COMMENTS

And the 'Timeline' area becomes much more about comment/ review and praise than anything else. The old 'Project Timeline' is still available to see, but has changed colour and style now that the project has gone live and is in 'Debut' mode.
