

BILBOARD

This section of your slate can be used to advertise your projects. The most important project you are working on at the moment. And whichever project you select for this section is most likely the project that will be featured (if at all) on the Rolling thunder stream.

MY PROJECTS

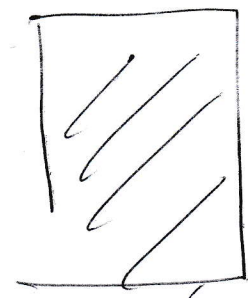

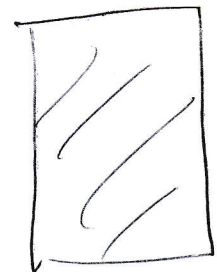

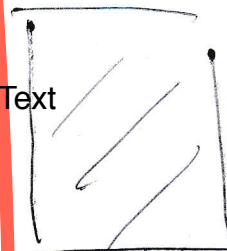

PUBLIC

PRIVATE

You can make your projects Public or Private. Since you STARTED these projects this public/private status is effective across the network, not just on your slate.

MY COLLABORATIONS

Text

All these tabs can be enlarged to fill the 'About' section of your Slate. The About section is comprised of info taken first from Facebook, which can then be edited by you. Your Resume is all your past jobs and your Info is all the genres you have selected - I see it very much like filling in a form before you start a job. Fill in a form of all the genres you love and hate - a kind of checklist. This section should be very visually dynamic.
